Schools for Health in Europe

# SHE School manual 2.0 – cultural and national adaption

---

Børge Koch, National SHE coordinator in Denmark

This activity has received funding  
under an operating grant from the  
European Union's Health Programme

# The Danish primary and lower secondary school

- Children can start at the age of 5 year in the preschool class
- 9 years basic education in a wide range of subjects
- One of the school subjects is health education. Lesson time is not allocated to this subject - the subject should be seen as being a cross-curricular subject.

# My plan as a national coordinator in Denmark....

- SHE European Standards and their components (2019) – presentation in the Ministry of Education
- Translating the SHE School Manual ver. 2.0 in Danish language
- Working on an Annex describing School Health promotion in a danish context – a document to explain how competence goals are coupled with the role of the teacher and focus on the teachers function within health education in schools/classes

## More plans...

- Send out the SHE School Manual via website and social media
- Send out the SHE School Manual to my own network by mail with a request to forward it on another's network
- Letter to the Danish government asking for a greater commitment to the health promotion school in Denmark (Budget 2021)
- Inspire teacher and teacher education with new suitable material from SHE
- Establish further training for teachers in Denmark, where the SHE School Manual is presented and used
- Present the SHE School Manual in school health campaigns in Denmark
