# Flemish preventive health landscape

### **Health objectives**

By 2025 we live healthier regarding diet, sedentary behavior, physical activity, tobacco, alcohol and drugs

#### **Specific objective for education**

By 2025 80% of the schools maintain a preventive health policy that meets minimal quality criteria

# Flemish preventive health landscape

- School advisory services: PBD
- Moev
- Mental health centres
- Healthcare providers: tobacco cessation specialists

coaches

## Implementation channels

#### Nieuwsbrief Gezonde School 14

#### Toon dat uw onderwijsinstelling rookvrij is!

Scholen en onderwijsinstellingen zijn sinds dit schooljaar volledig rookvrij, 7 dagen op 7. Leeftingen kunnen vaaaf nu leeren in een volledig rookvrije omgeving. Dat is positief, want zien roken doet roken. Een goede signalisatie is nodig om leerlingen, cursisten, personeelsleden en bezoekers dudelijk te maken dat jouw onderwijsinstelling helemaal rookvrij is. Bestel nu een gratis signalisatepakket van Generatie Rookvrij en laat zien dat jouw onderwijsinstelling rookvrij is.

Doe samen met je kleuters mee aan de Woogie Boogie Beweegdag

#### Maak van jouw school een Gezonde School

Organiseren tilllir og school som sem gezond omfall? Em bevergingstassendoorpre? En ook met die infoessie over roken zit het snor? Fantastisch Mischien kriebelt het wel om gezondheid een 's zeuturele' plek te geven op school Wist je trouseren dat gezondheid ook in de eindemenn zit en dat het gezondheiddeelind nu een onderdeel is van het beleid mod levelingenlegeleiding? Reden te meer dus om gezondheid op school est zin de verst ezette. Het Vlaam Institutut Caerdan level een de Logo's slaan daarom de handen in eilkaar en organiseren in 2019 lokale infoessies Cezonde School.

**Engagement of the departement of Education and Training** 

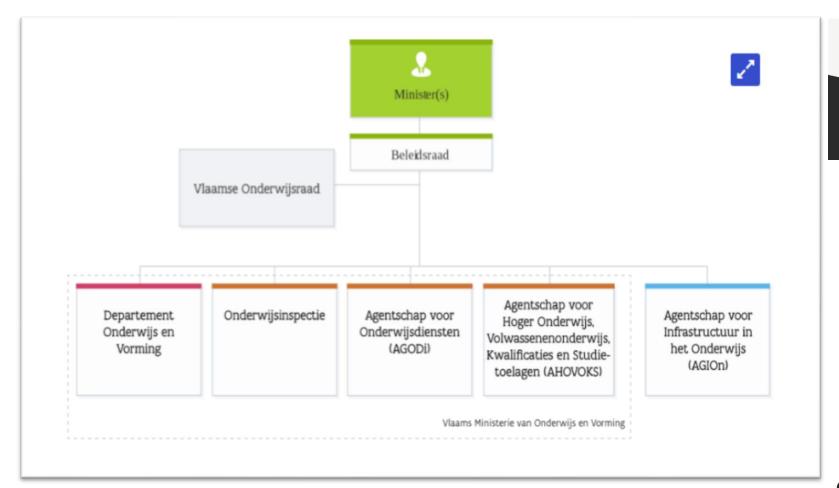

# Department of education and training

- Supports the minister of Education in preparing, follow-up and evaluation of the policy
- Part of a larger policy domain with Agencies and the education inspectorate

Flanders
State of the Art

#### Different kinds of measures

### **Examples**

- Smoke Free Generation
- "The High-time for Healthy time" action plan
- Regulation:
  - Decree on pupil guidance
  - New attainment targets
  - Decree on quality in education

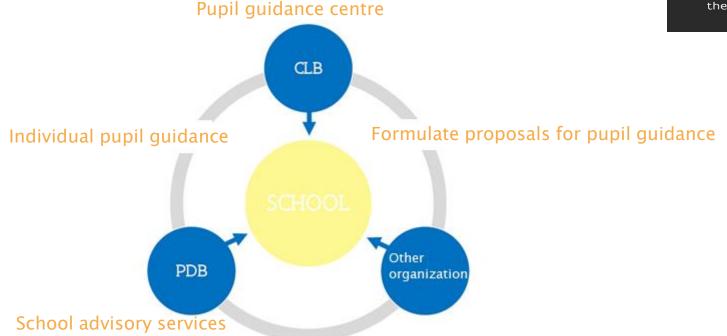

## Decree concerning pupil guidance

### Clarifies the roles and tasks of all players

#### New attainment targets

#### 16 key competences

- Competences of physical, mental and social health (1)
- Social relational competences (5)
- Self-awareness, self-expression, self-direction (14)
- + link with other competences possible

### Difference with the past:

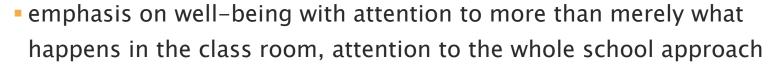

Attainment targets to pursue  $\rightarrow$  attainment targets to reach

# Reference framework for the quality of education

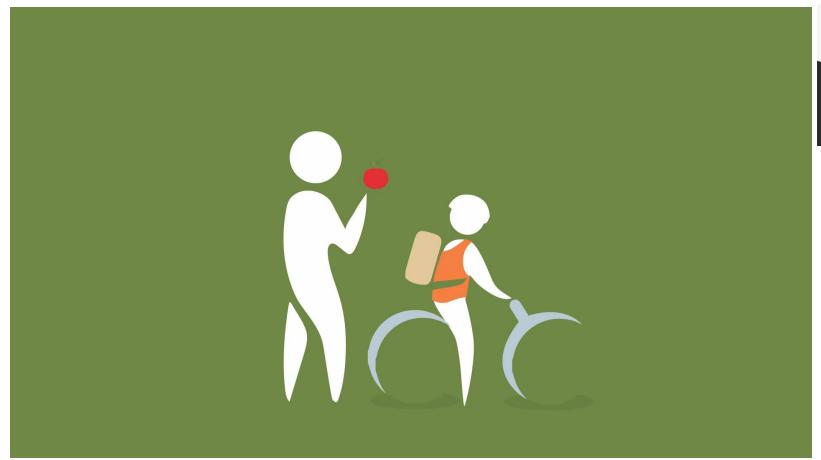

- Framework used by the education inspectorate
- The framework
  - expectations regarding the quality of education
  - encourages schools to make their own (quality) policy

supports dialogue between the educational partners

# **Obstacles?**

- The school advisory services
  - Don't receive additional resources.
  - Don't have thematic expertise for all the themes in health policy
  - Busy writing new curricula

We don't have manpower for all of the health themes.

# Plans for the future?

- Evaluation of the Online tool 'My healthy school' (pilot)
  - Can a school uses the tool without extra support?
  - Do we need extra (thematic) manpower?
    - School advisory services = multiple-theme supporters
    - Create functions for specific thematic support in schools?
- Evaluation of the decree on pupil guidance
- New ministers = new political choices

# Thank you!
