

Making every school a health-promoting school

Global launch

Virtual meeting jointly organized by WHO and UNESCO

22 June 2021, 13:00 – 14:30 CEST

Arabic/English/French/Spanish interpretations available

BACKGROUND

This global launch will introduce the *Initiative on Health-Promoting Schools* and present the newly developed guidance package consisting of four publications:

1. Global standards and indicators for health-promoting schools and systems;
2. Implementation guidance;
3. Country case studies; and
4. Guideline for school health services.

Global and country-level stakeholders, including representatives from government and school communities will present their perspectives and experiences in implementing school health and health-promoting school approaches.
